PERSONNEL MANAGEMENT OFFICE

OPM/GOVT-10

System name: Employee Medical File System Records.

System location:

- a. For current employees, records are located in agency medical, personnel, dispensary, health, safety, or other designated offices within the agency, or contractors performing a medical function for the agency.
- b. For former employees, most records will be located in an Employee Medical Folder (EMF) stored in Federal Records Storage Centers operated by the National Archives and Records Administration (NARA). In some cases, agencies may retain for a limited time (e.g., up to 3 years) some records on former employees.

Note 1.--The records in this system of records are ``owned" by the Office of Personnel Management (Office) and should be provided to those Office employees who have an official need or use for those records. Therefore, if an employing agency is asked by an Office employee to access the records within this system, such a request should be honored.

Categories of individuals covered by the system:

Current and former Federal civilian employees as defined in 5 U.S.C. 2105.

Categories of records in the system:

Records maintained in this system include--

- a. Medical records, forms, and reports completed or obtained when an individual applies for a Federal job and is subsequently employee;
- b. Medical records, forms, and reports completed during employment as a condition of employment, either by the employing agency or by another agency, State or local government entity, or a private sector entity under contract to the employing agency;

- c. Records resulting from the testing of the employee for use of illegal drugs under Executive Order 12564. Such records may be retained by the agency (e.g., by the agency Medical Review Official) or by a contractor laboratory. This includes records of negative results, confirmed or unconfirmed positive test results, and documents related to the reasons for testing or other aspects of test results.
- d. Reports of on-the-job injuries and medical records, forms, and reports generated as a result of the filing of a claim for Workers' Compensation, whether the claim is accepted or not. (The official compensation claim file is not covered by this system; rather, it is part of the Department of Labor's Office of Workers' Compensation Program (OWCP) system of records.)
- e. All other medical records, forms, and reports created on an employee during his/her period of employment, including any retained on a temporary basis (e.g., those designated to be retained only during the period of service with a given agency) and those designated for long-term retention (i.e., those retained for the entire duration of Federal service and for some period of time after).

Note 2.--Records maintained by an agency dispensary are included in this system only when they are the result of a condition of employment or related to an on-the-job occurrence.

Note 3.--Records pertaining to employee drug or alcohol abuse counseling or treatment, and those pertaining to other employee counseling programs conducted under Health Service Program established pursuant to 5 U.S.C. chapter 79, are not part of this system of records.

Note 4.--Only Routine Use ``u" identified for this system of records is applicable to records relating to drug testing under Executive Order 12564. Further, such records shall be disclosed only to a very limited number of officials within the agency, generally only to the agency Medical Review Official (MRO), the administrator of the agency Employee Assistance Program, and any supervisory or management official within the employee's agency having authority to take the adverse personnel action against the employee.

Authority for maintenance of the system:

Authority for maintenance of the system includes the following with any revisions or amendments:

Executive Orders 12107, 12196, and 12564 and 5 U.S.C. chapters 11, 31, 33, 43, 61, 63, and 83.

Purpose(s):

Records in this system of records are maintained for a variety of purposes, which include the following:

- k. To ensure proper and accurate operation of the agency's employee drug testing program under Executive Order 12564.

Routine uses of records maintained in the system, including categories of users and the purpose of such uses:

Note 5.--With the exception of Routine Use ``u," none of the other Routine Uses identified for this system of records are applicable to

records relating to drug testing under Executive Order 12564. Policies and practices of storing, retrieving, accessing, retaining and disposing of records in the system:

Storage:

Records are stored in file folders, on microfiche, in automated record systems, and on file cards, x-rays, or other medical reports and forms.

Retrievability:

Records are retrieved by the employee's name, date of birth, social security number, or any combination of those identifiers.

Safeguards:

Records are stored in locked file cabinets or locked rooms. Automated records are protected by restricted access procedures and audit trails. Access to records is strictly limited to agency or contractor officials with a bona need for the records.

Retention and disposal:

The EMF is maintained for the period of the employee's service in the agency and is then transferred to the National Personnel Records Center for storage, or as appropriate, to the next employing Federal agency. Other medical records are either retained at the agency for various lengths of time in accordance with the National Archives and Records Administration's records schedules or destroyed when they have served their purpose or when the employee leaves the agency. Within 30 days after the individual separates from the Federal service, the EMF is sent to the National Personnel Records Center for storage.

Destruction of the EMF is in accordance with General Records Schedule-1(21). Records arising in connection with employee drug testing under Executive Order 12564 are generally retained for up to 3 years.

Records are destroyed by shredding, burning, or by erasing the disk.

System manager(s) and address:
